

Town of Dennis 2010 Cultural Resource Inventory

The **Dennis Arts and Culture Council** is putting together an inventory of cultural resources in our town. This includes cultural and arts organizations, individual artists who live or work in Dennis, art educators, galleries and their owners and staff, foundations and other funding sources, information resources, venues where cultural events can or do take place, and media outlets. We are defining art and culture in the broadest, most inclusive sense.

Initially, we plan to only use this inventory internally to help us with grant making decisions, and to communicate directly with you about concerns affecting the arts in our town. Therefore, at the moment we need only your most basic information, and you will not be receiving any spam or other advertising except the occasional announcement of Council sponsored events.

Individual Business Institution Venue Other _____
