

PRE-APPLICATION

In order to better serve business certificate applicants, the Town of Dennis requires that a Pre-application be reviewed and signed by the Building Commissioner prior to issuance of a Business Certificate. The purpose of the pre-application is to ensure that the proposed business is located within the proper zoning district within the Town. At that time the building commissioner may also inform applicants of other regulatory matters, i.e. sign permits and/or building code requirements. Once the pre-application has been endorsed by the building commissioner return it to the Town Clerks Office.
