RATES APPROVED AND VOTED BY BOARD OF SELECTMEN: October 7, 2008

CONDITIONS COVERING COMPENSATION

Compensated time will begin only when the equipment arrives at the DPW and will end at the time of release in the field or at the DPW office.

Safety lighting on all hired equipment shall consist of operational 4 way flashers, plow lights and a rotating or strobe beacon light.

No compensatory time is to be allowed for the attachment or detachment of plowing equipment, for travel, standby, breakdown or meals.

All hired equipment, after reporting to work by instruction from the DPW Superintendent or his designee, shall be used for a minimum of four hours during any one storm. When the work period exceeds four hours, the equipment shall be paid for the actual number of hours worked, the time to be computed to the nearest one-quarter hour.

Equipment shall be required to show a ½ hour break after 7 ½ hours worked. The maximum chargeable time is 22.5 hours in a 24 hour period.

Insurance Certificates / Must list Town of Dennis as additionally insured

Any ballast loaded at the DPW yard must be returned clean before clocking out.
