ACTION	FINDING
C2 - Voluntary demolition and reconstruction of a building or structure which is non-conforming by dimension on any other location on the lot in which it is located outside of the existing non-conforming footprint unless it conforms with the dimensional regulations of the zone in which it is located or the non-conforming nature of the new proposed structure is found to be substantially less non-conforming by the ZBA	

§ 1.4.2.1 To hear and decide applications for special permits upon which the Board is empowered to act under this By-Law pursuant to M.G.L. ch. 40A. Special permits may be granted only upon a finding by the Board that the proposed use will not create a nuisance, hazard or congestion, or other significant harm to the neighborhood, nor cause derogation from the general purpose and intent of the By-Law, the stated district intent or applicable use criteria. It shall be the responsibility of the applicant for any special permit to show, to the satisfaction of the Special Permit granting authority, that the following criteria are met:

- a. The use is allowed by special permit in the district in which proposed, pursuant to §2.2.2 - Use Regulations Schedule; **The site is used for residential purposes and will continue to be used as such.**
- b. Suitability of the site for the proposed use in light of the applicable district intent, as provided in §2.1.5; **Residential uses are allowed within this district.**
- c. Adequacy of management of traffic flow within the site as well as in relation to adjoining streets and properties, so as to minimize unsafe or harmful impacts of the use; **Proposed alterations will not increase traffic to the site.**
- d. Compatibility of the proposed use with surrounding land uses, so as to minimize harmful impact or conflict with existing desirable neighborhood character, including views, vistas and other aesthetic values; **Site will continue to be used in a fashion similar to that of other properties and historical use.**
- e. Adequacy of provision of utilities and other necessary or desirable public services; **The addition will not increase the need for utilities or other public services.**
- f. Adequacy of control of artificial light, noise, litter, odor or other sources of nuisance or inconvenience to adjoining properties, public ways and neighborhoods; **The addition will not generate light, noise, litter, odor or other sources of nuisance.**
- g. Adequacy of protection from degradation and alteration of the natural environment, including but not limited to slopes and other topographical features, vegetation, wetlands, groundwater and water bodies and wildlife habitat. **The addition will not degrade the natural environment.**

**TOWN DEPARTMENTS COMMENTS:**

- **PLANNING:**
  - The proposal is to raze what is left of existing one-story single-family structure following a gas explosion and replace it with a larger, two-story single-family more conforming structure.
  - The larger building improves the front and left setbacks bringing those into conformance.
  - Due to the location of the property in a dense residential neighborhood near the water, the time of year construction and not blocking the road conditions have been added.
  - The proposal improves a couple of setbacks and is under the bulk thresholds.
  - The Board can find that a lawful pre-existing non-conforming structure exists on the property and the proposed reconstruction, as conditioned, will not be substantially more detrimental to the neighborhood than the existing structure.
- **NATURAL RESOURCES:** Not in Conservation jurisdiction.
- **HEALTH:** Need final septic application before sign-off for Building.

<b>PROPOSED CONDITIONS</b>	<ol style="list-style-type: none"> <li>1.
