Section (s) \_\_\_\_\_

Details of Violation: \_\_\_\_\_

Shed was relocated from a non-conforming location to a more non-conforming location. Deck was replaced with a dry laid patio expanding the structural footprint in the front yard setback and expanded to be closer to the way shown on the attached plan. Patio is a structure under Section 5 Definitions: STRUCTURE An assembled combination of materials at a fixed location to give support or shelter, exclusive of boundary or retaining walls, fences, flag poles, self contained heating or ventilating equipment and the like. The patio isdoes not meet any of the tests for being exempt from setbacks and clearly provides support as illustrated on the landscape plan (attached) provided to the Conservation Commission. \_\_\_\_\_
