Good morning,

I am urging the town of Dennis to support housing for the hard working people who are trying to stay on Cape.

It is very possible to great affordable housing that is denser then the massive houses being built for people who spend two weeks a year and possibly a few weekends a year

They contribute very little to the local yearly economy but apparently their voices are louder because as we all know, money talks.

The area in question would be viable if the engineers understand that they need to have a coup of entrances and egresses. Putting them too close to the stop light would create too much of a back up. Have you been there when the daycare gets out?

Please imagine what the cape will be like if we lose young families and all those folks from NY, CT, and NJ age out?

Businesses are screaming for help. We have lost several great long term employees in the last few months because they can't afford to live here and their commutes have become exhaustive.

Please at least entertain the idea and perhaps not give in to the NIMBYS.

Best

Kim Wohlbold
